

Elliott School of International Affairs

THE GEORGE WASHINGTON UNIVERSITY

IAFF 6163:10: Transnational Security

Instructor: Dr. Caitlin Ambrozik

Thursdays 5:10-7:00

Instructor Information

Professor: Dr. Caitlin Ambrozik

Office: TBD

Email: cem324@cornell.edu

Office Hours: After class and by appointment

General Course Information

Spring 2019

Thursdays, 5:10-7:00pm

Lisner Hall, Room 335

3 credits

Course Description

This course focuses on transnational security issues and how states and non-state actors address these growing threats to global peace and security. Transnational security threats range from terrorism to maritime security issues that threaten international shipping lanes. These threats are often complex and require collaborative and innovative solutions to mitigate them. As such, over the course of the semester, we will learn what these threats are and how state and non-state actors work together (or not) to mitigate these threats. The course is intended to provide an overview of transnational security issues, some of which are addressed more thoroughly in other course offerings in Security Policy Studies.

This course will combine lectures and seminar style discussions. As such, student participation is critical. Each week students will be assigned required readings and students are expected to come to class having completed all of the required readings. There are no assigned textbooks for the course, but there are numerous journal articles and book chapters. Students can find the journal articles via GWU library. For the required book chapters, the professor will provide copies of the relevant chapters on the course website. Each week the professor has also provided additional recommended, but not required, readings for students interested in learning more about that week's topic. The professor has also included a sample of datasets and data sources associated with that week's topic that students may be interested in using for their final research paper.

Learning Objectives

After completing this course, students will be able to:

1. Describe contemporary transnational security issues and how states and non-state actors are responding to them
2. Analyze security challenges and develop policy prescriptions
3. Produce written communications appropriate for the international security field

Course Materials

Required Materials

There are no assigned textbooks for the course, but there are numerous journal articles and book chapters. Please see each week below for the required reading material that can be accessed through the University Library System.

Blackboard Course Access

Blackboard will be used for posting course files and assignments and for communicating with the class. You are already enrolled for this course on Blackboard if you have completed registration for the course. It is your responsibility to periodically check the course site (log in at <http://blackboard.gwu.edu/> Using your gwu.edu address) for updates to the syllabus/readings.

Workload Expectation

In this 3-credit graduate course, students are expected to work for 450 minutes per week (this includes 110 minutes of time spent in class per week); totaling to 37.5 hours of work over the duration of this 15-week semester.

Grading and Assessment

Fully understanding the course material requires students to think critically and utilize high-level analytical skills regarding complex issues. To receive full points for participation, students must be actively engaged with the material and take part

Requirements and Due Dates

All papers and assignments will be graded on an A-F scale:

Participation	20% (Cumulative)
Policy Memo	20% (Due February 21)
Project Update #1	5% (Due March 7)
Project Update #2	10% (Due April 4)
Final Research Paper	45%(Due May 2)

Assignment Details

All assignments must be handed in on time and composed in default settings with 12 or 11pt. Times New Roman or Calibri font, double spaced with normal one-inch margins. Late papers will lose one full grade per session. **All assignments must be emailed to the professor by 5pm the date the assignment is due.** It may be required that papers be uploaded to Blackboard for screening through the TurnItIn plagiarism detection software.

1. Policy Memo- 20% (Due February 21) Students are expected to write a 3-page policy memo addressing a security issue from a list to be provided in class two weeks prior to the deadline. The memo must include a bottom-line assessment of the security issue, background of the issue, a discussion section that includes support for the assessment and a policy implications section. Additional details of the assignment will be provided by the professor two weeks prior to the due date.

2. Class participation: 20% (Cumulative) Students are expected to come to class having read all the material and willing to discuss the assigned readings. Additionally, each week one student will be assigned the session's "discussion leader." During the first week of class, the professor will provide a sign-up for students to choose, on a first come first serve basis, on what week they wish to be a discussion leader. As a discussion leader, students are expected to circulate a 1-2 page summary of the week's readings and propose a few questions regarding the readings for the class to discuss. Students are expected to circulate this brief summary for the class to read by 12pm on the Wednesday before the assigned class.

3. Project Update #1: 5% (Due March 7) Students will be responsible for handing in a research question and 10 preliminary research sources for their final research topic. Students should also be prepared to discuss their research question to the class on this day.

4. Project Update #2: 10% (Due April 4) Students will be responsible for handing in a 1-2 page project overview. The project overview should include the main research question, the student's preliminary argument/ hypothesis, and the research design the student will use to test the student's main argument or hypothesis for the final paper. Please come to class prepared to discuss any questions/concerns/ or difficulties you are having with your research paper.

4. Final Paper- 45% (Due May 2) The final paper will be a 20-25 page research paper. The paper may focus on any transnational issue discussed in the course. If the student wishes to write a paper on another transnational issue not discussed in class, the student must receive prior approval by the professor. The paper will address an analytical question, provide detailed analysis of that question, provide a final assessment and discuss the relevant policy implications of the research's findings. Students must use footnotes (or endnotes) using either APA or Chicago Manual Writing Styles.

Grading Scale

Excellent	Good	Satisfactory	Fail
A 96%-100%	B+ 87%-89%	C+ 77%-79%	F Under 70%
A- 90%-95%	B 84%-86%	C 74%-76%	
	B- 80%-83%	C- 70%-73%	

Late Work Policy

Under extenuating circumstances, a student may ask the instructor for extended time to complete the assignment. It is the instructor's choice to grant an extension or not. No late assignments will be accepted without advance permission.

Course Policies

Policy on Children in Class

Currently, the university does not have a formal policy on children in the classroom. The policy described here is just a reflection of my own beliefs and commitments to students.

1. For children and babies, I understand that unforeseen disruptions in childcare can put parents in the position of having to miss class to stay at home with a child. While this is not to be a long-term childcare solution, occasionally bringing a child to class in order to attend class when there is a lapse in childcare is acceptable.
2. I ask that all students work with me to create a welcoming environment that is respectful of all forms of diversity, including diversity in parenting status.
3. In all cases where babies and children come to class, I ask that you sit close to the door and if your child needs special attention and is disrupting learning for other students, the student must step outside until their need has been met.

University Policies & Services

Academic Integrity Code

Academic dishonesty is defined as cheating of any kind, including misrepresenting one's own work, taking credit for the work of others without crediting them and without appropriate authorization, and the fabrication of information. For details and complete code, see: studentconduct.gwu.edu/code-academic-integrity

Accommodations for Students with Disabilities

Any student who may need an accommodation based on the potential impact of a disability should contact the Disability Support Services office at 202-994-8250 in the Rome Hall, Suite 102, to establish eligibility and to coordinate reasonable accommodations. For additional information see: disabilitysupport.gwu.edu/

Religious Observances

In accordance with University policy, students should notify faculty during the first week of the semester of their intention to be absent from class on their day(s) of religious observance. For details and policy, see: students.gwu.edu/accommodations-religious-holidays.

Mental Health Services 202-994-5300

The University's Mental Health Services offers 24/7 assistance and referral to address students' personal, social, career, and study skills problems. Services for students include: crisis and emergency mental health consultations confidential assessment, counseling services (individual and small group), and referrals. For additional information see: counselingcenter.gwu.edu/

Emergency Preparedness and Response Procedures

The University has asked all faculty to inform students of these procedures, prepared by the GW Office of Public Safety and Emergency Management in collaboration with the Office of the Executive Vice President for Academic Affairs.

To Report an Emergency or Suspicious Activity

Call the University Police Department at 202-994-6111 (Foggy Bottom) or 202-242-6111 (Mount Vernon).

Shelter in Place – General Guidance

Although it is unlikely that we will ever need to shelter in place, it is helpful to know what to do just in case. No matter where you are, the basic steps of shelter in place will generally remain the same.

- If you are inside, stay where you are unless the building you are in is affected. If it is affected, you should evacuate. If you are outdoors, proceed into the closest building or follow instructions from emergency personnel on the scene.
- Locate an interior room to shelter inside. If possible, it should be above ground level and have the fewest number of windows. If sheltering in a room with windows, move away from the windows. If there is a large group of people inside a particular building, several rooms maybe necessary.
- Shut and lock all windows (for a tighter seal) and close exterior doors.
- Turn off air conditioners, heaters, and fans. Close vents to ventilation systems as you are able. (University staff will turn off ventilation systems as quickly as possible).
- Make a list of the people with you and ask someone to call the list in to UPD so they know where you are sheltering and who is with you. If only students are present, one of the students should call in the list.
- Await further instructions. If possible, visit GW Campus Advisories for incident updates (<http://CampusAdvisories.gwu.edu>) or call the GW Information Line 202-994-5050.
- Make yourself comfortable and look after one other. You will get word as soon as it is safe to come out.

Evacuation

An evacuation will be considered if the building we are in is affected or we must move to a location of greater safety. We will always evacuate if the fire alarm sounds. In the event of an evacuation, please gather your personal belongings quickly (purse, keys, GWorld card, etc.) and proceed to the nearest exit. Every classroom has a map at the door designating both the shortest egress and an alternate egress. Anyone who is physically unable to walk down the stairs should wait in the stairwell, behind the closed doors. Firemen will check the stairwells upon entering the building.

Once you have evacuated the building, proceed to our primary rendezvous location: the court yard area between the GW Hospital and Ross Hall. In the event that this location is unavailable, we will

meet on the ground level of the Visitors Parking Garage (I Street entrance, at 22nd Street). From our rendezvous location, we will await instructions to re-enter the School.

Alert DC

Alert DC provides free notification by e-mail or text message during an emergency. Visit *GW Campus Advisories* for a link and instructions on how to sign up for alerts pertaining to GW. If you receive an Alert DC notification during class, you are encouraged to share the information immediately.

GW Alert

GW Alert provides popup notification to desktop and laptop computers during an emergency. In the event that we receive an alert to the computer in our classroom, we will follow the instructions given. You are also encouraged to download this application to your personal computer. Visit *GW Campus Advisories* to learn how.

Additional Information

Additional information about emergency preparedness and response at GW or the University's operating status can be found on *GW Campus Advisories* (<http://CampusAdvisories.gwu.edu>) or by calling the GW Information Line at 202-994-5050.
